Refresh this page on your browser if it is more than **one hour** old. Page is published around :45 minutes after every hour.

HRRR data is updated hourly at :45 min. **GFS** data is updated every 6 hours at :00 min.

Our goal is to refresh the data and this PDF at :45 minutes after the hour to capture the latest forecast numbers. Some delay is inevitable and common. It takes several minutes to download the data, create this table and upload this .pdf file to the web server.

Forecast data is from the new and developing Bay Area **AQPI** system provided by **NOAA** specifically to **Contra Costa County Flood Control & Water Conservation District** and should be considered experimental and subject to change or discontinuation at any time.

This data is published by, and at the discretion of the **Contra Costa County Flood Control & Water Conservation District**.
