

# View Past Radar Data

Go to:

<https://www.ncei.noaa.gov/maps/radar/>

Click on “Radar Data”

Zoom and pan to location you want to observe past radar at. You can also use the search box.

Change the date and time to the when you want look at the past and click “Update Map”. Then click the + or – 5 min buttons to move through the data.

Change the hours and minutes with the small up/down arrows you see when you hover over the small boxes and click “Update Map” to move faster through the data.
